

CAMC Health Education and Research Institute CE Disclosure & HIPAA Compliance Form

It is the CAMC Health Education & Research Institute's policy to ensure balance, independence, objectivity and scientific rigor in all programs it provides. Everyone in a position to control the content of an educational activity must disclose all financial relationships with ineligible companies. The ACCME Standards for Integrity and Independence require that we disqualify individuals who refuse to provide this information from involvement in the planning and implementation of accredited continuing education.

Purpose – The Accreditation Council for Continuing Medical Education (ACCME) requires CME providers to identify and mitigate all potential conflicts of interest of planners and presenters prior to CME activity (i.e., all individuals in a position to control the content). Relevant relationships identified on the disclosure form (including the absence of such relationships) must be conveyed to the audience prior to the activity.

Definitions – “Relevant financial relationships” are those in which an individual has both: 1) a personal financial relationship (any amount) with a commercial interest (any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on patients) in the past 24 months, whether the relationship has now ended or is currently active. 2) control in planning or presenting educational content addressing specific products of the commercial interest. (No disclosure needed for relationships with non-profits, government entities, or entities not producing health care goods or services.)

Significant Interests and Off-Label Use of Products – It is the policy of the CAMC Health Education and Research Institute (CAMC Institute) that any faculty (speaker) who presents at a continuing education activity designated for CME credit must disclose any financial interest or other relationship (i.e. grants, research support, consultant, honoraria) that person has with the manufacturer(s) of any commercial product(s) that may be discussed in the educational presentation. Guidelines also require that these relationships be disclosed to participants prior to educational activities verbally or in brief statements in conference materials such as brochures, syllabi, exhibits, and poster sessions. In addition, when an off-labeled use of a commercial product, or an investigational use not yet approved for any purpose is discussed during an educational activity, the presenter is required to disclose that the product is off-label for the use under discussion or that the product is still investigational. All certified continuing education activities must conform to these policies.

Please disclose **ALL** financial relationships that you have had in the past **24 months** with ineligible companies, **regardless of the amount and potential relevance of each relationship to the education.**

An **ineligible company** is any entity whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. For specific examples, please visit <http://accme.org/standards>

Per ACCME guidelines, CAMC Institute will review and determine which financial relationships are relevant to the content of the educational activity. Relevant financial relationships must be mitigated prior to individuals assuming their roles in the education. If relationships listed below are determined to be relevant to the content of the educational activity, CAMC Institute CME staff will contact you to discuss mitigation strategies.

In the past 24 months, have you had a financial relationship with an ineligible company?

HIPAA Compliance The Health Insurance Portability and Accountability Act (HIPAA) states that patient records and photos used in teaching must be stripped of all "direct identifiers" such as name, address, social security number, patient ID number, identifiable photographic images, etc., or that you have written authorization from the patient to use his/her directly identifiable health information in this way. The CAMC Institute requires that you, as faculty, verify by way of your signature that your presentation materials (handouts, slides, PowerPoint presentations, video, journal articles, etc.) meet these HIPAA standards.

I verify that I am in compliance with the HIPAA standards to protect the privacy of the patients discussed in my presentation(s). I have either received written authorization from the patient, removed any identifiable images or patient records from my presentation, or my presentation does not pertain to patient treatment.
