

Advanced Stroke Life Support

If stroke care is part of your world, **ASLS** keeps you sharp when minutes mean brain.

This scenario-driven hybrid course for health care professionals focuses on rapid stroke recognition, critical decision-making and seamless team coordination. Learn to reduce door-to-treatment times and improve patient outcomes using the latest American Heart Association stroke science and protocols.

The ASLS course includes online self-directed learning and an in-person skills session.

Location

CAMC Center for Learning and Research
3044 Chesterfield Ave.
Charleston, WV 25304
